

Welcome to the Creative Arts Center Jewelry Creation Class. In this 6 week set of classes, as a beginner, you will learn the basic use of tools such as saws, files and hammers to fabricate rings, pendants and bracelets. If you have had experience in metal smithing you will be able to have my help to fabricate your imaginings using the equipment in this studio.

The Center will have sterling silver sheet and wire available to you at exact cost, so please bring small bills and change, or a check, to pay for what you need each week.

Estimated Cost Examples:

\$3.00 for a band ring

\$9.00 for a cuff bracelet

\$6 per sq. inch for sheet silver

The designs you choose can be your own creation or I can help you adapt your ideas from magazines. I will bring samples of projects you can make to the first class. Zip-lock bags and empty pill bottles along with a tote or tool box will help you transport your items.

The fee for the class is \$120 for members plus \$15 lab fee and \$150 for nonmembers plus \$15 lab fee. The lab fee covers the use of tools, etc. It is good for 4 sessions of classes.

I look forward to meeting you and sharing the challenge and pleasure of metalsmithing with you.
